WEBB 3XE ROBOTICS

FTC TEAM 359 · BRAND GUIDELINES

Precise. Warm. Student-built.

Contents

How Webb.exe looks and sounds everywhere: the website, Instagram, posters, the pit and official documents.

Also as an editable PowerPoint, for slides and quick edits.

01	Brand idea	03	02	Two registers	04
03	Logo	06	04	Color	11
05	Typography	16	06	Grid and bar	20
07	Social kit	21	08	Shape and UI	23
09	Dark and light	24	10	Imagery	25
11	Voice	26	12	Files	27

01

BRAND IDEA

Less, but exact.

We are an engineering team, so the brand works like good engineering: nothing extra, everything aligned, every element doing a job. The warmth comes from Rose and from real photos of real people.

Grid first

Every element sits on the grid. Flush left, ragged right. Alignment is the decoration.

One loud thing

Each layout has one focal point: a statement, a render or a number. Everything else stays quiet.

Rose with restraint

Rose is a signal, not a fill for everything. Black and white do most of the work.

We build a new robot every season, and we build it well.

02

TWO REGISTERS

One brand, two voices.

A minimal Core for the website and official documents, and an expressive Social side for Instagram and events. Both share black, Rose, the fonts, the star and the logo-on-black rule.

Core

Swiss and minimal. Grid, hairline rules, the Rose bar, no decoration.

- Website
- Engineering portfolio
- Sponsor packets and letters
- Award submissions, reports
- Slides, robot panels

Social

Expressive and collected. Stars from the logo, halftone, polaroids, handwriting, collage.

- Instagram posts and stories
- Reels covers
- Event promos (Herizon STEM)
- Member intros
- Recaps and celebrations

02

THE VIBE

Set on dials.

Where each register sits. Use these when deciding how hard, soft, loud or quiet a new piece should feel.

Core Social

SHARP — **SOFT**

Core uses 12px corners and fully round buttons. Social softens further with stars, tape and tilted photos.

MINIMAL — **DECORATED**

Core uses only the Rose bar. Social uses one or two elements from the social kit per post.

DARK — **LIGHT**

Black is the default. Social is always dark. White is only for official documents.

AIRY — **DENSE**

Core breathes. Social can be layered, but every post keeps one clear headline.

SERIOUS — **PLAYFUL**

Core is confident and factual. Social has fun: pop culture, collage, jokes.

STILL — **ANIMATED**

Core motion is short fades. Reels and stories can twinkle stars and slide polaroids in.

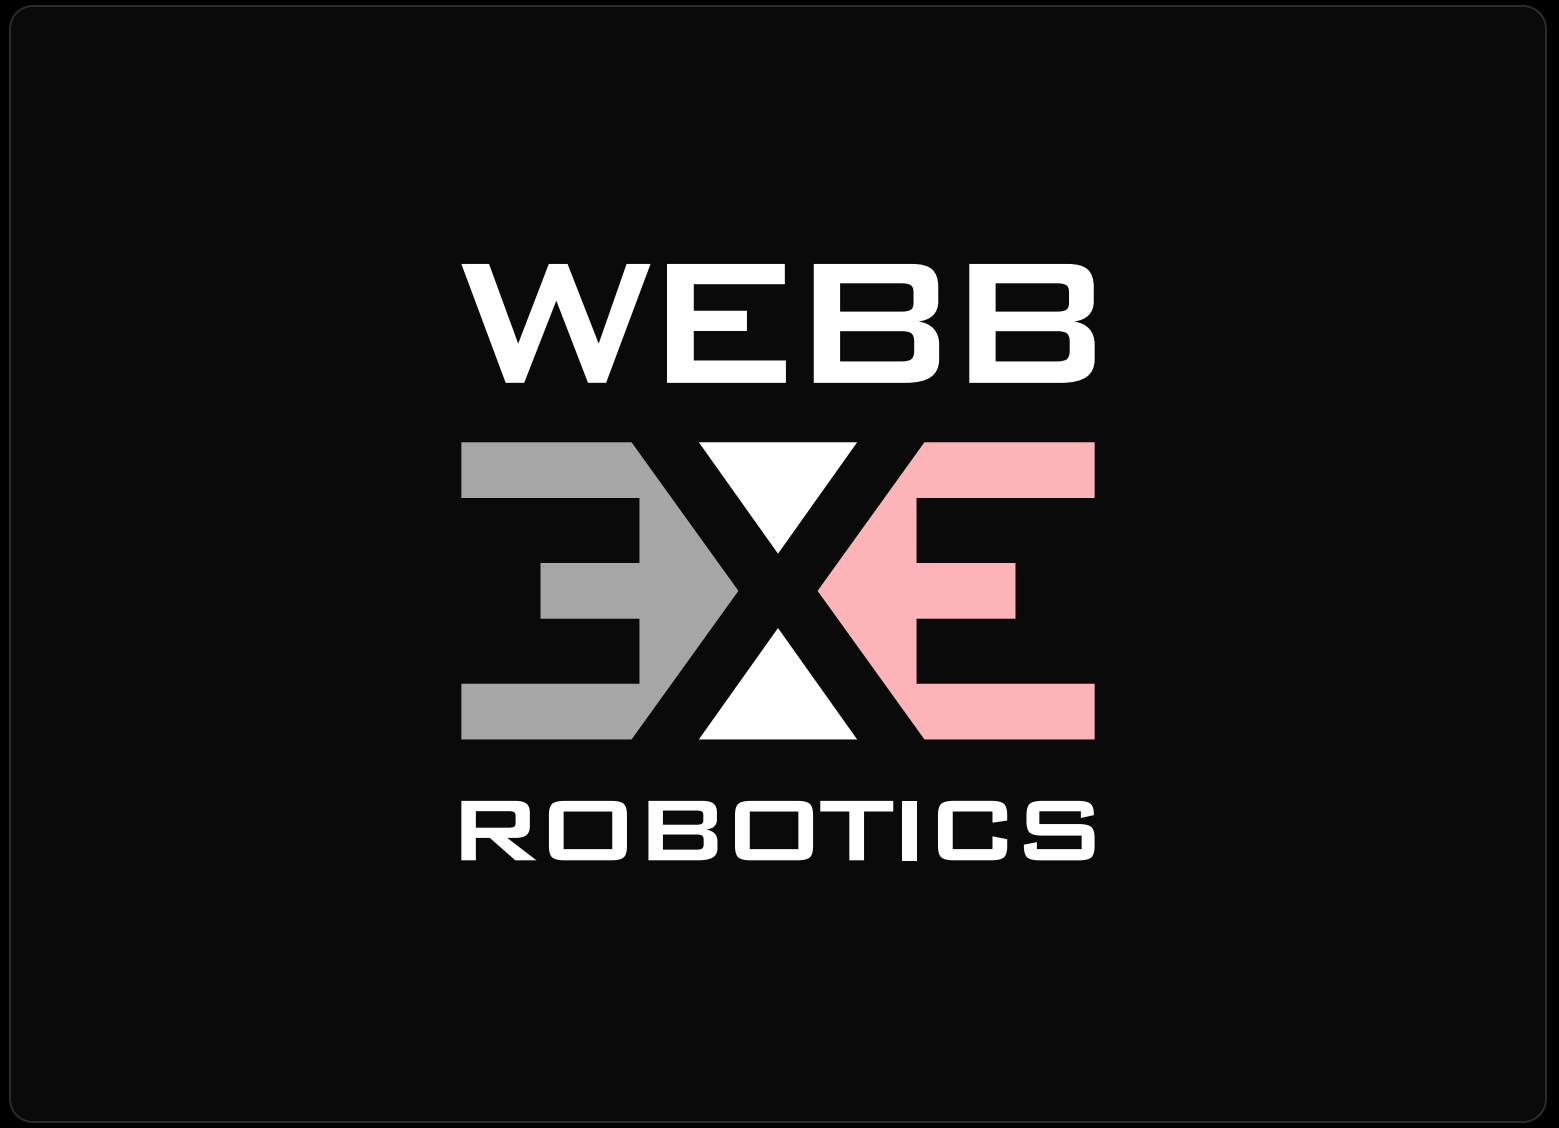

03

LOGO

Primary mark.

The full lockup and the most complete form of the logo. Formal and first-impression uses: covers, banners, profile photos, sponsor materials.

EXE SYMBOL + TEAM NAME

03

LOGO

Secondary mark.

Supporting contexts where the full lockup doesn't fit or isn't needed: post corners, favicons, stickers, robot panels.

EXE SYMBOL

03

LOGO

Primary wordmark.

The full brand style, with the signature star accent integrated into the X. Most places the team name appears: post titles, season launches, the website header.

WEBB.EXE WITH THE STAR IN THE X

03

LOGO

Secondary wordmark.

Simplified, without the star. Formal or small uses where clarity matters: footers, page headers on black, small print.

WEBB.EXE, TEXT ONLY

03

LOGO USAGE

Only on black.

The logo appears only on Black, Night or Midnight. Never on white, Rose, another color, a photo or a star. Black is the default background; white is only for official documents, where the logo sits on a black cover or band.

Never on white

Never on Rose or color

Never on photos or stars

CLEAR SPACE	Equal to the height of one bar of the mark's E, on every side.
MINIMUM SIZE	Mark 20px tall on screen, 6mm in print. Wordmark 96px wide, 25mm in print.
WHITE PAGES	Black cover, black header band or black tile. Running headers use "Team 359" in type, not the logo.
NEVER	Recolor, stretch, outline, add effects, rotate, or set "WEBB.EXE" in a font yourself.

04

COLOR

Rose signals.

Black and white do most of the work. Rose is the signature and appears with restraint. Black is the default background.

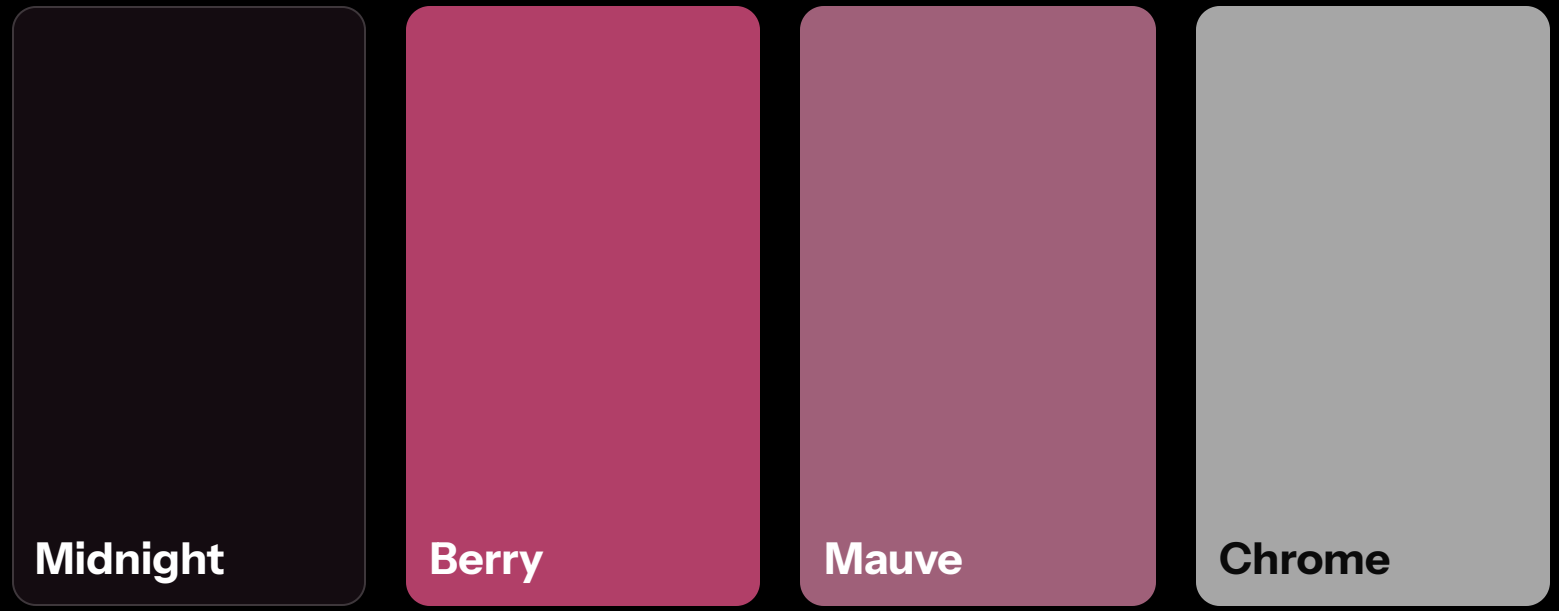

Rose	Blush	Black	Night	White
#FDB4B9	#FED5E0	#000000	#0A0A0A	#FFFFFF
RGB 253 180 185	RGB 254 213 224	RGB 0 0 0	RGB 10 10 10	RGB 255 255 255

04

SUPPORTING

Depth and data.

Midnight is the second dark. Berry is Rose for white pages. Mauve and Chrome handle data and metal details.

#140C11
RGB 20 12 17

#B13F68
RGB 177 63 104

#9F6079
RGB 159 96 121

#A6A6A6
RGB 166 166 166

04

ACCENTS

Seven accents.

Same lightness as Rose, so they read as one family. One accent per post, never behind the logo. On white pages, set text in the darker partner.

Rose on white? Use Berry #B13F68.

Lilac	Mint	Butter	Sky	Peach	Orchid	Aqua
#C9B8FF	#A8E8CC	#FFE2A0	#A6D4FF	#FFC2A1	#F3B0E8	#9EE6E8
RGB 201 184 255	RGB 168 232 204	RGB 255 226 160	RGB 166 212 255	RGB 255 194 161	RGB 243 176 232	RGB 158 230 232
Lilac Text on white #714CE6	Mint Text on white #32805E	Butter Text on white #936D15	Sky Text on white #1D76C9	Peach Text on white #C0551B	Orchid Text on white #C238AB	Aqua Text on white #308083

04

NEUTRALS AND CONTRAST

Tinted toward Rose.

Every grey leans slightly pink so neutrals and Rose sit together. Use only the text pairs that pass.

PROPORTION · DARK

PROPORTION · LIGHT

Rose on Night	11.7 : 1	Statements, labels, numbers
White on Night	19.8 : 1	All text on dark
Night on Rose	11.7 : 1	Buttons, color fields
Ink on White	18.7 : 1	All text on light
Berry on White	5.6 : 1	Accent text on light
Rose on White	1.7 : 1	Never for text

04

PALETTES

Named combinations.

Pick one palette per piece. The first color is the background, then the accents in order of use.

Not sure? Use Core.

Core The default. Website, slides, most posts.	Black #000000	Rose #FDB4B9	White #FFFFFF	Blush #FED5E0
Night Quiet dark layouts, robot panels, video.	Night #0A0A0A	Midnight #140C11	Rose #FDB4B9	Chrome #A6A6A6
Official White documents: portfolio, letters, reports.	White #FFFFFF	Paper #F8F5F6	Ink #151012	Berry #B13F68
Engineering Robot, code and build posts.	Night #0A0A0A	Lilac #C9B8FF	Sky #A6D4FF	White #FFFFFF
Outreach Workshops, mentoring, community.	Night #0A0A0A	Mint #A8E8CC	Aqua #9EE6E8	White #FFFFFF
Sponsors & announcements Thank-yous, news, dates.	Night #0A0A0A	Butter #FFE2A0	Peach #FFC2A1	Rose #FDB4B9
Herizon STEM / celebration Herizon STEM, awards, graduations.	Midnight #140C11	Orchid #F3B0E8	Rose #FDB4B9	Blush #FED5E0

05

TYPOGRAPHY

Each face has one job.

One working face does almost everything. One statement face, one handwriting face and one face for the number.

STATEMENTS

Brasika Display

One statement per page: covers, section openers, hero lines.

Chasing innovation.

TITLES · LABELS

Instrument Sans

Page and slide titles, card titles, names. Bold titles, semibold tracked-caps labels.

Robot overview

READING

Instrument Sans

Body text, captions, buttons and forms.

359 Webb.exe is a student-run FIRST Tech Challenge team from The Webb Schools in Claremont, California.

NOTES

Caveat

Handwritten notes, photo captions, little asides.

Worlds, May 2nd

TEAM NUMBER

HK Modular Bold

The number “359” only.

359

05

STATEMENTS

Brasika, in its place.

One statement per page or slide, up to about 10 words, in sentence case. Rose or white on black, Ink or Berry on white. Ordinary titles stay in Instrument Sans.

Chasing innovation, one season at a time.

USE IT FOR	NOT FOR
Covers: portfolio, sponsor packet, slide decks	Ordinary page, slide or card titles
Section openers and the website hero line	Body text, captions or lists
The headline of a social post	Buttons, navigation or forms
Pull quotes and closing lines	Labels, names, numbers or data
Posters, banners, merch	All caps, or under 24px / 18pt

05

NOTES

Caveat, in the margins.

The handwriting layer. Short notes that feel written by a teammate: captions, pointers, asides. A few words at a time, never a headline or a paragraph.

Photo captions
Place and date, or who is in the photo.

Annotations
Point at a part of a render or a diagram, with a hand-drawn arrow.

Asides
“Scroll for more”, “swipe”, a quick thank-you, a date on a sticker.

05

TYPE SCALE

One scale.

The same faces on screen and on paper. Formal documents keep Brasika for the cover and use Instrument Sans headings inside.

ROLE	SCREEN	PRINT (A4)	SCREEN · SOCIAL · SLIDES	FORMAL DOCUMENTS
Statement	40–132px	24–60pt	Brasika Display	Brasika Display (covers)
Title	36–58px	18–28pt	Instrument Sans, bold	Instrument Sans, bold
Heading	18–24px	10–12pt	Instrument Sans, bold	Instrument Sans, bold
Body	16–20px	9–10.5pt	Instrument Sans	Instrument Sans
Caption	13–14px	7.5–8.5pt	Instrument Sans	Instrument Sans
Label	11px caps, tracked	6–7pt caps	Instrument Sans, semibold	Instrument Sans, semibold
Note	18–34px	10–16pt	Caveat	Caveat (rarely)

06

GRID AND BAR

The grid is the motif.

Our recognizable element in Core is structure: a visible grid, hairline rules, index numbers, and one Rose bar taken from the horizontal strokes of the E in our mark.

A4 page on the 6-column grid, columns shown in Rose.

COLUMNS

12 on screen, 6 on A4. 24px gutters on screen, 5mm in print.

THE BAR

A solid Rose rectangle, 5:1. Above a title, as a data bar, or as one band on a poster. Once per layout.

RULES

1px hairlines separate groups. No boxes or shadows.

INDEX NUMBERS

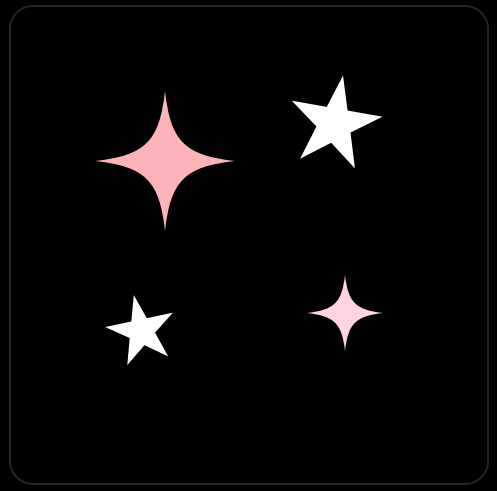

For real sequences only: chapters, steps, versions.

07

SOCIAL KIT

Made from the logo.

Instagram keeps the same black, Rose and fonts, plus a small kit of elements that come from the logo's star or from real photos. Use one or two per post.

Stars
The four-point sparkle from the X, plus five-point stars. White, Rose or Blush. Off faces, text and the logo.

Halftone star
One large dotted star fading out behind the headline. One per post, Rose only.

Polaroid
White frame with soft corners, tilted up to 4°, Blush tape, a Caveat caption with place and date.

TYPE	One Brasika headline per post. Instrument Sans for names, event titles and details. Caveat for captions and asides.
LOGO	Secondary mark or primary wordmark in a top corner, on plain black.
COLLAGE	Member intros can use cut-outs and pop-culture references. Name at the top, role below, grad year on a star.
REAL INFO	Event posts carry date, time, place and a QR or link, with Rose for the key facts.

07

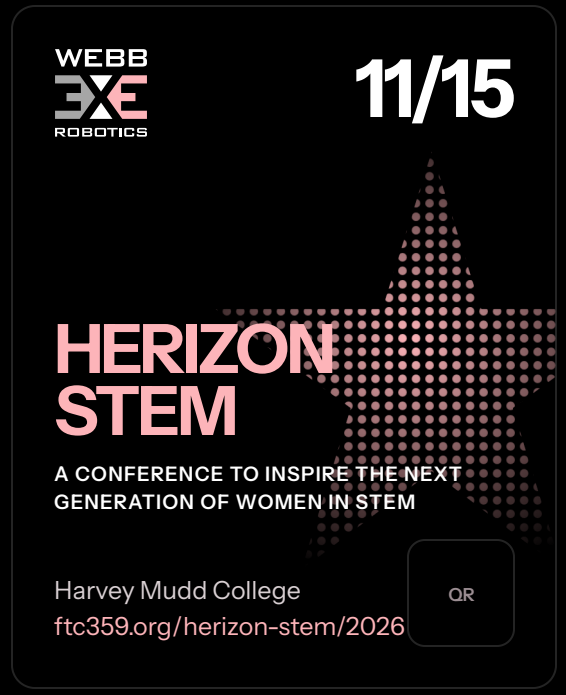

ON INSTAGRAM

Posts in this system.

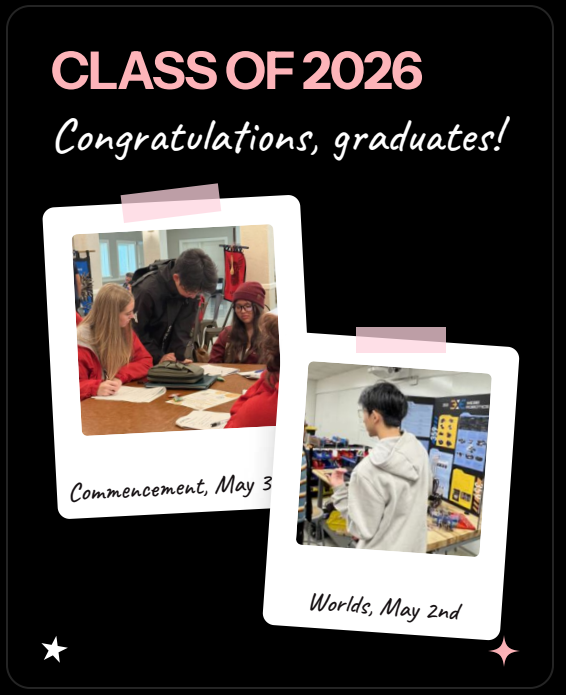

4:5 feed posts built from the kit.
Photos here are stand-ins.

Season launch

Event promo

Recap

08

SHAPE AND UI

Round, flat, quiet.

Interface rules for the Core register: the website, slides and documents.

CORNERS

Buttons, pills and tags fully round. Cards, photo frames, inputs and swatches 12px.

SURFACES

Flat. No shadows, glows or gradients. Separate with space, then a hairline, then a background change.

SPACING

8px base: 8 · 16 · 24 · 32 · 48 · 64 · 96 · 128.

MOTION

Fades and 8px slides, 200ms, ease-out. Hover changes color, not size.

BUTTONS

One primary (Rose) per screen. Secondary outlined. Links get a 2px Rose underline.

DARK

Sponsor us | The robot

COMPETITION | 2025–26

LIGHT

Download packet | Contact

Read the portfolio

OUTREACH | V2 · JAN 2026

09

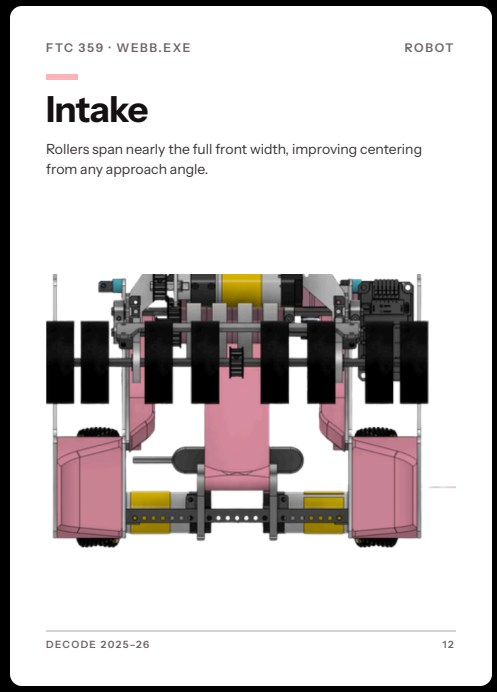

DARK AND LIGHT

Black is home. White is for the record.

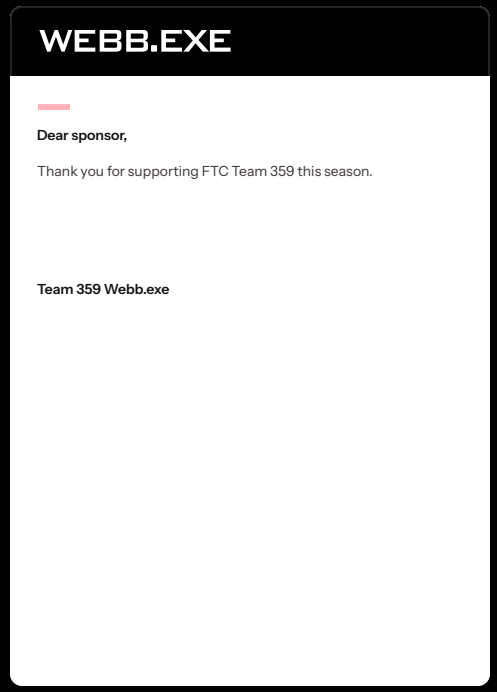

Dark for the website, social, posters and slides. Light only for official documents: the portfolio, sponsor letters and submissions. White pages with Instrument Sans headings, logo on a black cover.

Cover · black, logo, Brasika

Inside · white, Instrument Sans headings

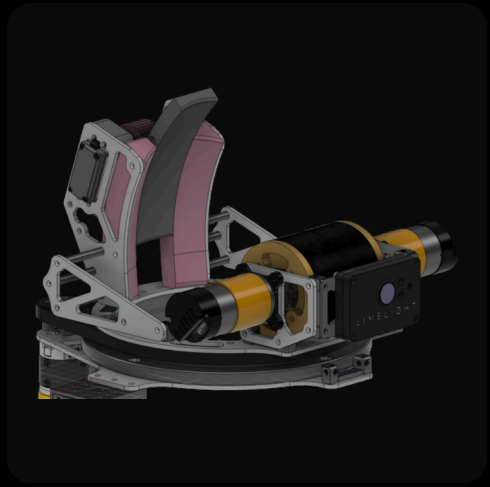

Letter · black header band

10

IMAGERY

Real robots, real people.

Three kinds of image, each with one treatment.

Renders
Cut out on Night or on white. Consistent three-quarter view, no colored backdrops.

Photos
Candid, natural color, tight on the action. 12px corners in Core; polaroid frames and tape belong to Social.

```
val error = target -
current
val out = kP * error
  + kD * (error - last) /
dt
last = error
```

Code and diagrams
Re-set code in a plain block. Redraw diagrams flat in brand colors when possible.

11

VOICE

Plain, specific, confident.

Write like engineers explaining their work to someone they respect. Real numbers, short sentences, no hype. Social can joke; documents never do.

DO	DON'T
"Our intake now picks up artifacts from any angle. Three versions to get there."	"Our AMAZING team built an INCREDIBLE robot!!! 🔥🔥"
"Thank you, goBILDA, for backing our DECODE season."	Vague claims like "innovative solutions" without the number or the mechanism.
"Herizon STEM, Nov 15 at Harvey Mudd College. Workshops open to middle and high schoolers."	Jokes in the portfolio, award submissions or sponsor letters.

12

FILES

Where everything lives.

When something isn't covered here, pick the simpler option, align it to the grid, then ask the design lead.
